Dear Valued Clients,

As the leader in Occupational Medicine, not only are we focused on providing first class healthcare, we are committed to keeping you informed of issues that may affect you and your business. OSHA regulations and standards are issues that affect businesses in Middle Georgia and we want you to be aware of what to expect from them. We are thankful to have a great working relationship with OSHA.

Due to that relationship, we are fortunate to have William "Bill" Fulcher back again as the guest speaker at our "What to Expect from OSHA" seminar. Bill has over 25 years of experience with OSHA. During that time, he has performed enforcement inspections, guided a team of industrial hygienists, engineers and safety specialists in day to day safety and health enforcement oversight. In his current role, his office provides enforcement, outreach and compliance assistance in the east side of Georgia.

At the seminar, you can expect to learn more about:

Case Management:
